SUBJECT: CORRECTION TO FINAL REPORT FOR THE 2002 ACEPHATE AND
METHAMIDOPHOS AMBIENT AIR MONITORING IN FRESNO COUNTY

Two errors were found in the final report, "Ambient Air Monitoring for Acephate and Methamidophos in Fresno County – Summer 2002." Results for samples HES-18 and HES-18C (sample log numbers 144 & 145) were not included in the laboratory report (Appendix II). HES-18 was reported correctly as <MDL for both acephate and methamidophos in the monitoring report. HES-18C was also reported as <MDL for both acephate and methamidophos in the monitoring report. However, the methamidophos result should have been reported as "detected" and not <MDL.

If you or your staff have questions or need further information, please contact me at 322-3726 or Kevin Mongar at 322-2449.
